**Cut CIA To Size**

To The Editor:

Postmaster General Day invites those who hold that any tax cut should be accompanied by a reduction in federal expenditures to suggest where cuts can be made.

Suggestion — Cut the CIA to size. It has been reported that when in full blast it will employ about 11,000 people. So far, its activities have not justified its existence. In the Powers case it caused this nation humiliation and embarrassment and in the Bay of Pigs fiasco one of the Cubans who was in the invasion effort said that it was an official of the CIA who promised the air cover, and not President Kennedy.

DAY

E.G. CAMPBELL, Coral Gables
